Amazing soundtrack! Buuut I kinda wish the songs were in .mp3 and not in .ogg :-\ . I can't find the music in my library, which sucks because I loved the music throughout this game. It was awesome. If anyone knows how to fix this pr where to find it, please let me know.. The sound track isnt showing up in my steam music library so i cant even play it. The songs are in .ogg, meaning you probably won't be able to burn these and listen to them on a CD player, which is kinda disappointing
